EQUESTRIAN BUILDINGS & SITES ENGINEERING FOR THE HORSE WORLD

## THE ADVANTAGES OF A WOODEN CONSTRUCTION

- A natural material, ideal for horses. Physical, thermal and bacteriological comfort.
- No-upkeep thanks to core treatment.
- Quality constructions at competitive prices. Beauty and finish from installation.
- No electrical phenomena.
- Hot galvanised or painted metal parts.
- Filling with northern wood, solid, steamed, planed, grooved, core-autoclave treated (no upkeep) or hard exotic wood.
- Thickness 42mm, solid wood, single span roof. Single skin steel roofing (red or green).

# HOUSING

PLEASE CONTACT OUR TEAMS FOR A QUOTATION

*We like to listen to our many riding friends and clients and at their request, we have decided to build modular box stalls and houses to suit the requirements of each client, respecting the lifestyle of both man and horse.*

*Taking your passion to the limit!*
